Assembly

The Raleigh Tokul 2 loves to play in rooty, rocky trails and take you through lines you never thought possible. With slightly relaxed geometry, the Tokul 2 offers a forgiving ride that helps you build skills and progress to more difficult trails. A simple 1x9 Shimano drivetrain and powerful hydraulic disc brakes keep you rolling over tough terrain.

The Weinmann U28 27.5" wheels and Kenda Honey Badger 27.5x2.2" tires provide plenty of grip. If you prefer the efficiency and low maintenance of a hardtail bike without rear suspension, you'll find a good balance of stability and quick handling in the Tokul 2.
