Assembly

Get your little lady ready to wave bye bye to training wheels and ride like a big girl with the lovely Lily 16. Designed for girls 3 to 6 years old, or 38" to 45" in height, this girls mountain bike-inspired design offers a lightweight frame that is easy to maneuver when she's riding and light enough for mom or dad to carry on the "rare" occasion that she's done, or already had too much fun.

The Lily 16 offers an aluminum fork and frame with a low standover height for easy on and off the bike. The single speed drivetrain keeps her focused on perfecting her braking skills with the front and rear v-brakes, making for a smoother, more controlled ride.
